Last Zone Selection (Blanking Option)

- 1) The blue wire extended from the opening of Power Cable slot is meant for Last Zone Selection.
- 2) There are 2 last zone available for selection:
 - a) 1 Feet - For vehicle without spare tyre or tow jig installed at the rear of vehicle.
 - b) 2 Feet - For vehicle installed with spare tyre or tow jig at the rear of vehicle.
- 3) To select 1 feet as the last zone, leave the blue wire uncut. Proceed with normal installation.
- 4) To select 2 feet, cut the blue wire at any point and wrap with insulation tape to avoid any shorting. Proceed with normal installation.
